SYRAH CALYPSO

2023

Syrah – our Calypso on the Odyssey.

ORIGIN: Austria, Burgenland

CATEGORY: Dry, Red, Still wine

GRAPES: 100% Syrah

WINE DESCRIPTION

A wine with complex depth and vibrant structure, featuring aromas of dark berries and a hint of black olives. The fruit notes are accompanied by a subtle spice of black pepper and cedar wood.

TERROIR

The Ungerberg vineyard has a sandy chernozem soil. Below it are sandy and silty sediments with limestone deposits that are about 7 million years old. The Ungerberg is a warm vineyard site that ripens early.

VITICULTURE

Throughout the year, beneficial plants are planted in every second vine row, and additionally, the entire area is greened for 6 months of the year. Careful vine pruning and early leaf work ensure that the vines remain vigorous. Moderate leaf removal plays a crucial role in keeping the grapes healthy until autumn.

VINIFICATION

After the production of the open mash, fermentation takes place for two weeks, during which the pomace is regularly punched down by hand. Subsequently, the wine matures for 12 months in 500-liter oak barrels to fully develop its aromas.

FOOD PAIRING

Syrah pairs particularly well with rich meat dishes such as beef, lamb, or barbecue, as its spicy flavors and tannins complement intense tastes. It also goes well with hearty vegetarian dishes like mushroom-based meals or aged cheeses.
